**One Stop Solution For Your All
Calibration And Testing Services**

*Company
Profile*

..... Company General Information

Company Name:-	PT. Fareast Calibration and Testing Services
Company Address:-	Tiban Raya Lestari, Block C/4 , Sekupang, Batam ,Indonesia
Nature of Business:-	Independent Calibration and Testing Laboratory
Establish Year: -	Since 2014
Scope of Calibration:-	Thermal ,Mechanical, Electrical, Dimensional & Analytical Instrument Calibration
Accreditation:-	KAN (Komite Akreditasi Nasional)
Certification:-	TUV Certification Body
Company Reg No (NIB) :-	9120301330447
TAX Reg No (NPWP):-	03.334.968.9-215.000
Telephone No:-	+62 -778-351-831
Mobile No:-	+62 -0812-6705-1658
Email :-	fareastcalibration@gmail.com andi@fareastcalibration.com mak@fareastcalibration.com
Website:-	www.fareastcalibration.com

More than 300 plus customers

More than 4000 instrument calibrated

ABOUT US:

PT.FAREAST CALIBRATION & TESTING SERVICES is fast growing and integrated with all relevant equipment Calibration & Testing Laboratory in Batam, Indonesia. Since 2014 we are providing quality services, with low price, best lead time and according to customer target price. PT.FAREAST CALIBRATION & TESTING SERVICES Laboratory is accredited by **KAN (Komite Akreditasi Nasional)** Indonesia accordance with the International standard ISO/IEC 17025:2017 for Calibration services.

PT.FAREAST CALIBRATION & TESTING SERVICES also has the privilege of being certified for ISO 9001:2015 for management system delivering accurate and consistent results from our laboratory of excellence .

OUR VISION:

Fareast calibration and testing services vision is to become a well-known and trusted accredited calibration laboratory. We would like to see ourselves in upcoming years is one of the best calibration service provider in the region.

OUR MISSION:

Fareast calibration and testing services mission is to be a well-known calibration service providers in the region. We are trying our best to deliver a good quality services to all our clients. We keep the policy of improving our methods and instrumentation to compliment new measurement technology. The Company has well specialized staff in the field of meteorology.

CORE VALUE:

- Integrity:** Support for doing the right thing
- Excellence:** Keep raising the bar
- Commitment:** Encourage employees to achieve their maximum potential
- Team work:** We are one

... Director Message ...

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that we started Fareast calibration & testing services in 2014. A company that was in the business of Calibration & Testing services. Almost instantly, Fareast Calibration & Testing Services became a prominent name in its business segment, but like every company director to their dream, I always wanted to push my company to more prosperous milestones. More than being a global player, I always perceived my company as a unit that could make a difference with its quality and competitively priced services.

I am happy to get back to you with yet another milestone PT. Fareast Calibration & Testing Services being Accredited Calibration Laboratory by **Komite Akreditasi Nasional (KAN)** Indonesia accordance with the International standard **ISO/IEC 17025:2017** for Calibration services.

PT. Fareast Calibration & Testing Services also has the privilege of being certified for **ISO 9001:2015** for management system.

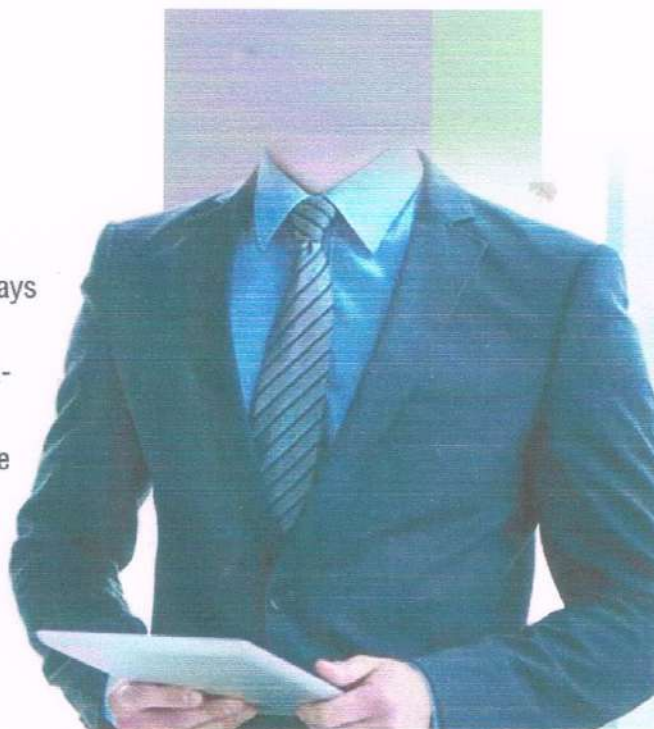

Our unwavering focus to 3p's ,Precision, Perfection and Professionalism with learning and advancement of our knowledge ,sharing them with our customers, and the value addition that we make to our clients.

We value and focus on quality measures as a commitment to integrity and quality.

We at PT. Fareast Calibration & Testing Services realize that performance is not the only measure, because at the end of the day, the outcome of our client business success is what really matter.

Warm Regards

Muhammad Aamir
Director Operations

... Key Features ...

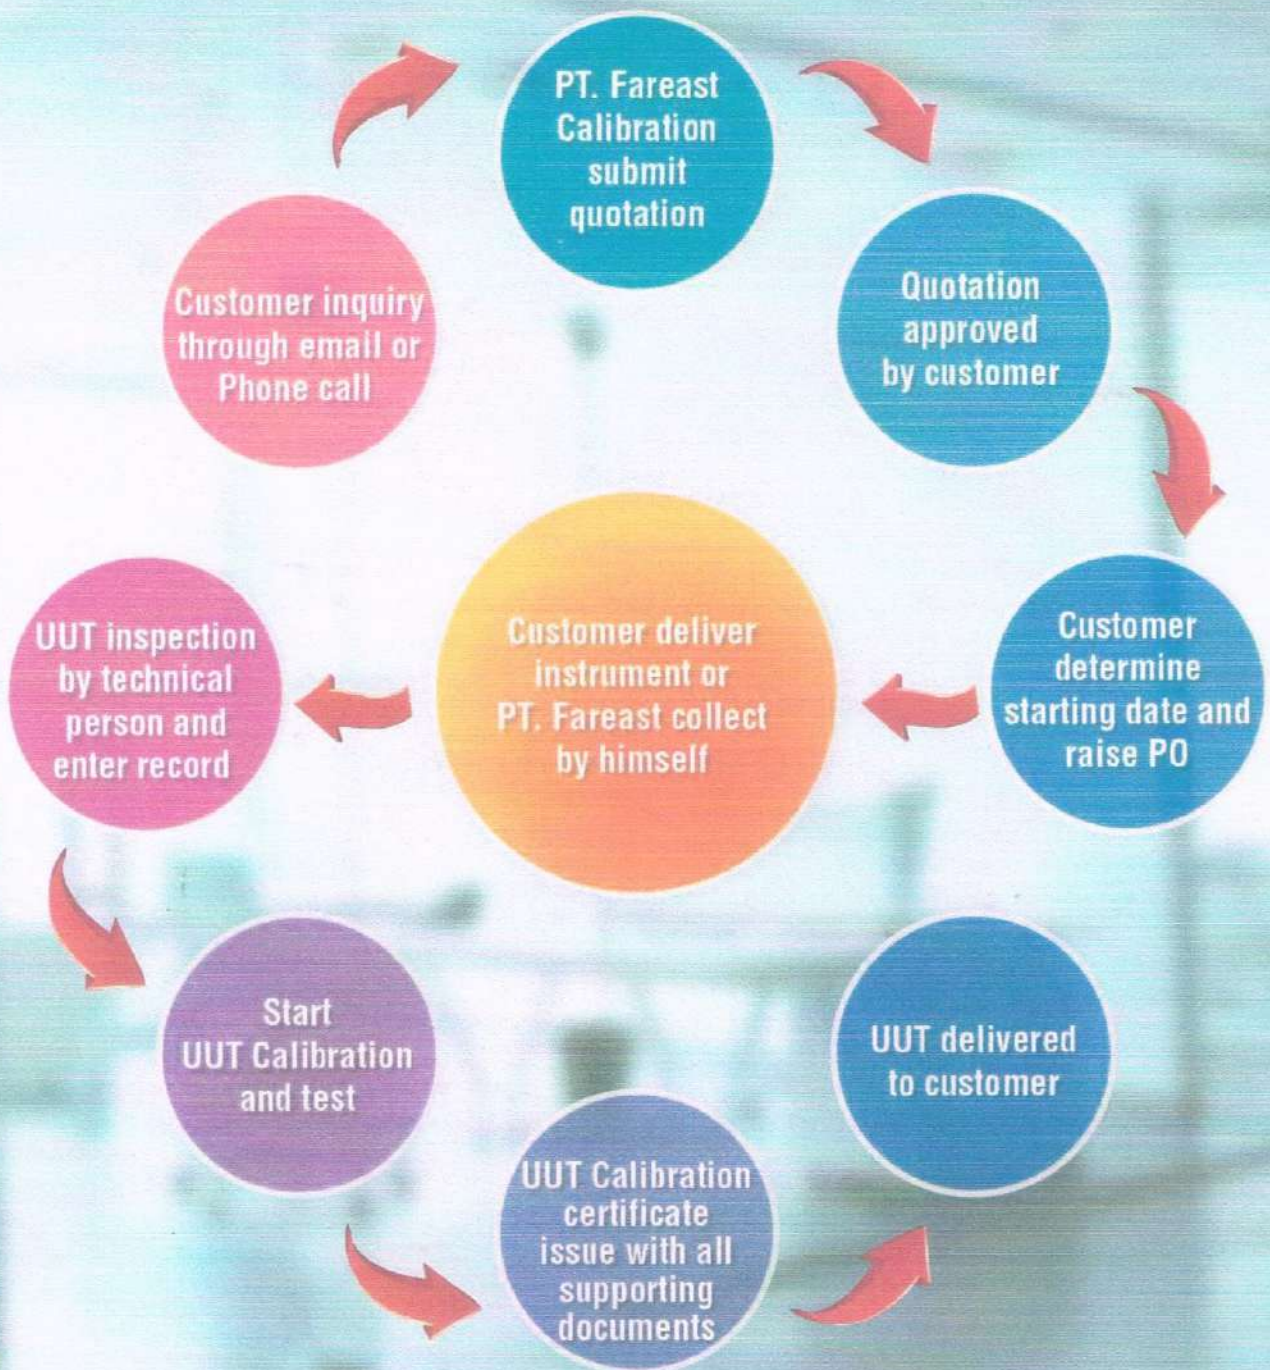

1. Accredited Calibration Laboratory by **Komite Akreditasi Nasional (KAN)** Indonesia accordance with the International standard ISO/IEC 17025:2017 for Calibration services.
2. PT. Fareast Calibration & Testing Services also has the privilege of being certified for ISO 9001:2015 for management system.
3. No compromise on quality.
4. Committed to delivery on time with in lead time.
5. Competitive price in town
6. No additional charges for express calibration.
7. No extra charges if instrument found faulty during inspection return with no charge.
8. Free pickup and delivery of equipment with in Batam.
9. Credit facility for 30 days.
10. In lab and onsite calibration facility available.
11. Trained & Competent Laboratory Technicians.

Organization Chart

Job execution flow chart

Core Services

Thermal Calibration

Temperature calibration refers to the calibration of any device used in a system that measures temperature.

Electrical Calibration

Electrical calibration refers to the process of verifying the performance of, or adjusting, any instrument that measures or tests electrical parameters. This discipline is usually referred to as dc and low frequency electrical metrology.

Dimensional Calibration

Dimensional calibration is performed by comparing the performance output of a hand tool, gage or another measuring instrument with a measurement standard to confirm that the item produces results which meet or exceed that standard's criteria.

Pressure Calibration

Pressure calibration is the comparison of the output of a device used to measure pressure with that of another pressure measurement device

Analytical Calibration

Analytical instrument calibration is the process by which ensure that an instrument readings are accurate the reference to establish standard. Calibration is performed by using primary standard. It is done to check the zero error deflection by using standard reference.

... Thermal Calibration ...

Capability

1. Glass Thermometer
2. Thermocouple
3. RTD
4. Temperature Indicator with sensor
5. Temperature Transmitter
6. Temperature gauge
7. Temperature switch
8. IR Thermometer
9. Black body source
10. Dry bath
11. Liquid bath
12. Hygrometer
13. Humidity sensor
14. Moisture box
15. Oven-Multi point
16. Furnaces-Multipoint
17. Chambers-Multipoint
18. Solder Iron Thermometer
19. Digital Thermometers
20. Thermal Environmental monitor
21. Temperature chart recorder

Capability

1. Analog /Digital Voltmeter
2. Analog/Digital Ammeter
3. Digital Multimeter
4. Digital Clamp meter
5. Digital Oscilloscope
6. High Voltage Tester AC/DC
7. Stopwatch/Timer
8. LCR Meter
9. Capacitance box
10. Inductance box
11. Resistance box
12. Power meter
13. Analog/Digital watt meter
14. Earth Tester /Insulation tester
15. Regulated power supply
16. Milli ohm meter
17. power analyzer
18. Voltage /Current/Resistance/Frequency source
19. Process calibrator
20. Mv/Ma calibrator

Dimensional Calibration

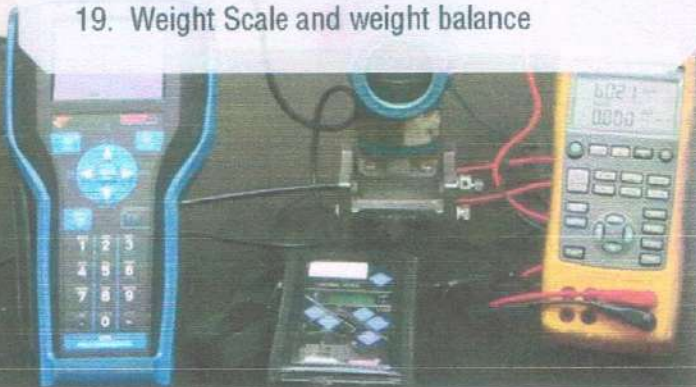

Capability

1. Surface Roughness tester w/specimen
2. Profile projector
3. Gauge Block set
4. Coating Thickness gauge
5. Ultrasonic Thickness gauge
6. Calipers
7. Hight Gauge
8. Depth Gauge
9. Dial bore gauge
10. Level Dial gauge
11. Internal Micrometer
12. External Micrometer
13. Groove Dial gauge
14. Dial Thickness gauge
15. Extensometer
16. Taper scale
17. welding gauge
18. V block
19. Measuring tape/pie tape
20. Foil set for thickness
21. Bevel protractor
22. Pin hole detector

Mechanical Calibration

Capability

1. Differential Pressure gauge
2. Digital pressure gauge
3. Analog pressure gauge
4. Manometer
5. Pressure safety valve
6. Pressure chart recorder
7. Vacuum gauge
8. Pressure calibrator
9. Hardness tester w/ block
10. Torque wrench
11. Torque meter
12. Durmeter
13. Push pull gauge
14. Torque screw driver
15. Fuel flow meter
16. Water flow meter
17. Hose pressure testing
18. Standard weight
19. Weight Scale and weight balance

General Calibration

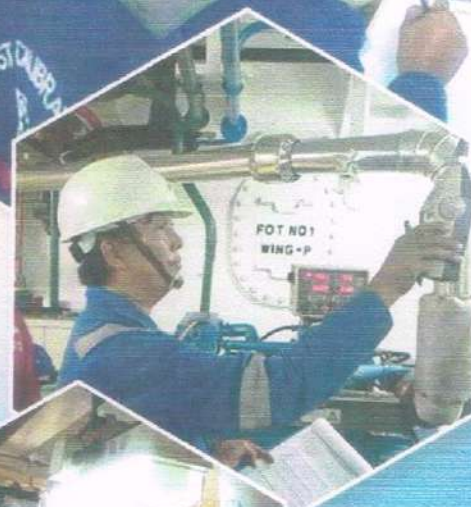

Capability

1. Viscometer
2. Alcometer
3. PH Meter
4. TDS meter
5. Hydrometer
6. Viscosity cup
7. Tachometer (Contact & Non-Contact)
8. Anemometer (van type and hot wire type)
9. Lux meter
10. Uv meter
11. Gauss meter (Digital & Analog)
12. Partical counter (Air born & hydraulic liquid)
13. Sound level meter
14. Salt Contamination Meter
15. Multi portable gas detector
16. Vibration meter
17. Chlorine meter
18. Fisher scope
19. Load cell
20. OWS test

Onboard Calibration & Testing

Capability

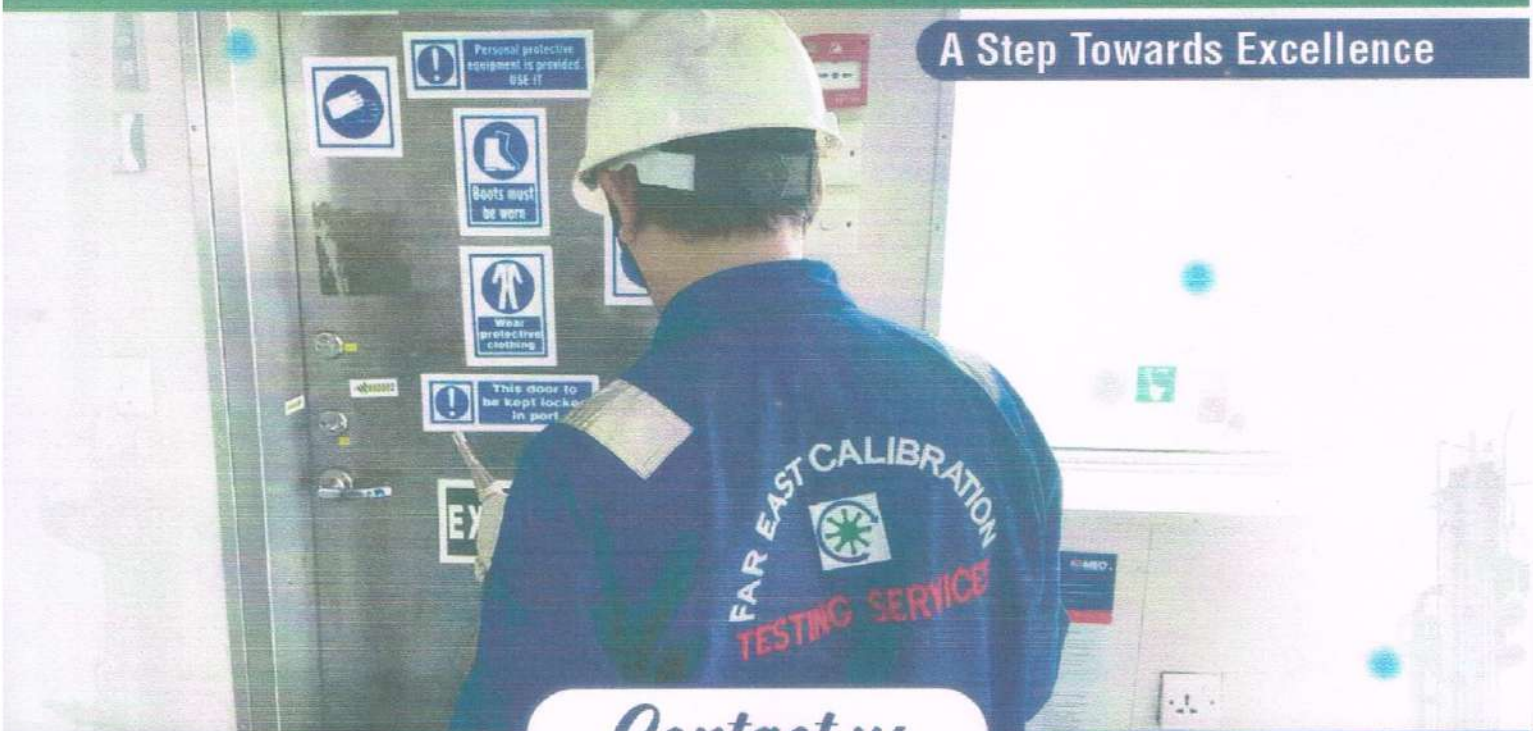

1. Differential Pressure gauge
2. Oily water separator test (OWS)
3. Flow meter Calibration (Fuel & water)
(With ultrasonic flow system)
4. Bulk material hose pressure testing
5. Fresh water hose pressure testing
6. Bunker hose pressure testing
7. Noise level survey
8. Vibration Test
9. All type weighing scale testing
10. All type of gas detector testing (Portable)
